flag specs glossary

Please use the Flag Dimensions to the right, when preparing art work for OUR Flags.

Different printers use different fabrics with varying degrees of stretch, & therefore sizes may vary.

Images distort towards graphic perimeters and button holes, with little or no distortion toward the centers.

Flag Fabric Graphics High impact 720 dpi Dye Sub Printing on a virtually "wrinkle free" stretch fabric, designed and engineered for this application. Custom printed from your art work.

note: Flags are stretched to the four points of contact with frame, please keep essential design elements 2” from edges, when designing keep in mind focus point is 3”-5” from outer edges.

flag specs glossary

Please use the Flag Dimensions to the right, when preparing art work for OUR Flags.

Different printers use different fabrics with varying degrees of stretch, & therefore sizes may vary.

Images distort towards graphic perimeters and button holes, with little or no distortion toward the centers.

File Format:

All artwork should be provided as high resolution digital files. Submit files via our FTP site or send on disc. Files accepted in Illustrator (convert fonts to outlines), Photoshop, Quark and InDesign, please provide all support files. Save all files in CMYK.

Job Completion Time:

Production of graphic print **REQUIRES 2 WEEKS** after receiving file.

File Preparation:

- Resolution of at least 100 dpi @ 100% size or equivalent. (200 dpi @ 50%, 400 dpi @ 25%).
- Include both printer and screen fonts or convert fonts to outlines.
- **MUST provide color outputs** or **PDF proofs** of file for reference. **Leave files layered. Do not flatten.**
- **Please Reference Pantone Colors for Logos, Type** or other elements that you would like matched.

Tips For Preparation:

- When creating 4-color black we recommend: 60%C, 40%M, 40%Y, 100%K
- When possible, logos and text should be converted to outlines.
- Scanned images should be saved as Tiff files in CMYK (at least 100 dpi at final output size).
- Keep text and logos within 3”-5” area from edges to avoid distortion.
