

Testritevisual®

Innovative · Value-Driven · American Made

To our Customers, Employees, and Suppliers,

The holiday season is drawing near and with it comes an opportunity to express gratitude and reflect upon this past year. 2020 has been challenging to say the least, and the Testrite family has not been spared. We know that most of you have had a difficult year as well.

We want to say - THANK YOU.

We recognize that it was our customers, our employees, and our suppliers that enabled us to make it through this year. You stuck with us as we found ways to evolve, and together we were able to get critically needed sanitizer supplies, shields, and signage into the field quickly.

In uncertain times you can count on our 101 years old family owned and operated business to deliver on its promises; for quality, for value, and for products that are made "RITE". We manufacture in America not because it's easy, but because there's value in having a true manufacturing partner close by.

This holiday season, we want to be the first to extend our gratitude to you. Stay safe, and we wish you many happy blessings for the new year to come. We'll be here when you need us.

In Gratitude,

Jeffrey Rubin, President
Testrite Visual
