

# Visual Merchandising (Creo™)

## Applicable Products:

Connectors  
Brackets

**Most Creo components use one of the following connectors/brackets to attach to the uprights and crossbars:**

1. Determine which connector is used. Slide glide into channel intersection and temporarily tighten to secure (fig. A).
2. Determine which bracket is used (if applicable). Slide bracket over connector(s) and tighten connector(s) to secure (fig. B).
