

Signholders (Monster™)

Applicable Products:

NST Series

1. Screw upright onto base using two short flat head screws (fig. A).
When inserting screws, tighten BOTH by hand first. Then, fully tighten using a Phillips head screwdriver (fig. A).
2. Screw frame onto upright using long flat head screw located inside of the frame (fig. B-1).
Connect frame holder to upright using two round head screws provided (fig. B-2).
3. Insert graphic as shown (fig. C).

NOTE: Model shown below may differ from your model, but assembly instructions remain the same.
